CORPORATE GOVERNANCE REPORT

0. Compliance with CMVM Recommendations

Sonae Indústria, SGPS, SA (Sonae Indústria) is subject to the Corporate Governance Code published by CMVM (the Portuguese Securities Market Commission) in January 2010, which is posted at www.cmvm.pt.

From all the recommendations in the Corporate Governance Code, Sonae Indústria only fails to adopt 2 recommendations for the reasons explained below. Sonae Indústria is aware of the importance of good corporate governance for business and for its shareholders and constantly seeks to adopt best practices in all areas in which operates. Therefore, in addition to fulfilling legal requirements and recommendations of the referred Code, Sonae Indústria has its own code of conduct, which can be found on the company website www.sonaeindustria.com.

During 2011, the Board of Directors decided to include some changes in the Code of Conduct, which aim to reinforce the principle, already included in that Code, that all directors and employees of the Group have to guide their conduct by the strict compliance of the applicable laws.

	RECOMMENDATION	Degree of Compliance	Corporate Governance Report
I.	SHAREHOLDER'S GENERAL MEETING		
I.1.	BOARD OF THE SHAREHOLDER'S GENERAL MEETING		
I.1.1.	The Chairman of the Board of the Shareholders' General Meeting shall be given adequate human and logistical resources, taking the financial position of the company into consideration.	Comply	1.1.
I.1.2.	The remuneration of the Chairman of the Board of the Shareholders' General Meeting shall be disclosed in the annual corporate governance report.	Comply	1.2.
I.2.	PARTICIPATION AT THE MEETING		
I.2.1.	The requirement of the Board of the Shareholders' General Meeting to receive statements for share deposit or blocking for participation before the General Meeting shall not exceed 5 working days.	Comply	1.3.
I.2.2.	Should the General Meeting be suspended, the Company shall not require share blocking during the interim period until the meeting is resumed, and shall then prepare itself in advance as required for the first session.	Comply	1.3.
I.3.	VOTING AND EXERCISING VOTING RIGHTS		
I.3.1.	Companies should not impose any statutory restriction on postal voting and whenever adopted or admissible, on electronic voting.	Comply	1.3.
I.3.2.	The statutory advance deadline for receiving voting	Comply	1.3.

I.3.3	ballots by post shall not exceed 3 working days. Companies shall ensure the level of voting rights and the shareholder's participation is proportional, ideally through the statutory provision that obliges the one share-one vote principal. The companies that: i) hold shares that do not confer voting right; ii) establish non-casting of voting rights above a certain number, when issued solely by a shareholder or by shareholders related to former, do not comply with the proportionality principle.	Comply	1.3.
-------	--	--------	------

I.4. RESOLUTION-FIXING QUORUM

	Companies shall not set a resolution-fixing quorum that outnumbers that which is prescribed by law.	Comply	1.3.
--	---	--------	------

I.5. MINUTES AND INFORMATION ON RESOLUTIONS PASSED

	Extracts from the minutes of the general meetings or documents with corresponding content must be made available to shareholders on the company's website within a five day period after the General Meeting has been held, irrespective of the fact that such information may not be classified as material information. The information disclosed shall cover the resolutions passed, the represented capital and the voting results. Said information shall be kept on file on the company's website for no less than a 3 year period.	Comply	1.3.
--	---	--------	------

I.6. MEASURES RELATING TO CHANGES IN CONTROL

I.6.1	Measures aimed at preventing successful takeover bids, shall respect both the company's and the shareholders' interests. The company's articles of association that by complying with said principal, provide for the restriction of the number of votes that may be held or exercised by a sole shareholder, either individually or in concert with other shareholders, shall also foresee for a resolution by the General Assembly (5 year intervals), on whether that statutory provision is to be amended or prevails – without super quorum requirements as to the one legally in force – and that in said resolution, all votes issued be counted, without applying said restriction.	Comply	1.3.
I.6.2	In cases such as change of control or changes to the composition of the Board of Directors, defensive measures shall not be adopted that instigate an immediate and serious asset erosion in the company, and further disturb the free transmission of shares and voluntary performance assessment by the shareholders of the members of the Board of Directors.	Comply	1.3.

II. MANAGEMENT AND AUDIT BOARDS

II.1 GENERAL POINTS

II.1.1 STRUCTURE AND DUTIES

II.1.1.1	The Board of Directors shall assess the adopted model in its Annual Report on Corporate Governance and pin-point possible hold-ups to its functioning and shall propose measures that it deems fit for surpassing such obstacles.	Comply	2.1.
II.1.1.2	Companies shall set up internal control and risk	Comply	2.2.2.

management systems in order to safeguard the company's worth and which will identify and manage the risk. Said systems shall include at least the following components: i) setting of the company's strategic objectives as regards risk assumption; ii) identifying the main risks associated to the company's activity and any events that might generate risks; iii) analyse and determine the extent of the impact and the likelihood that each of said potential risks will occur; iv) risk management aimed at aligning those actual incurred risks with the company's strategic options for risk assumption; v) control mechanisms for executing measures for adopted risk management and its effectiveness; vi) adoption of internal mechanisms for information and communication on several components of the system and of risk-warning ; vii) periodic assessment of the implemented system and the adoption of the amendments that are deemed necessary

II.1.1.3	The Board of Directors shall ensure the establishment and functioning of the internal control and risk management systems. The Supervisory Board shall be responsible for assessing the functioning of said systems and proposing the relevant adjustment to the company's needs.	Comply	2.2.4.
II.1.1.4	The companies shall: i) identify the main economic, financial and legal risk that the company is exposed to during the exercise of its activity; ii) describe the performance and efficiency of the risk management system, in its Annual Report on Corporate Governance.	Comply	2.4.
II.1.1.5	The Board of Directors and Supervisory Board shall establish internal regulations, which shall be disclosed on the Company's website.	Comply	2.3.

II.1.2. INCOMPATIBILITY AND INDEPENDENCE

II.1.2.1	The Board of Directors shall include a sufficient number of non-executive members to ensure that there is the capacity to effectively supervise, audit and assess the activity of the executive members.	Comply	2.1.1. and 2.1.2.
II.1.2.2	Non-executive members shall include an adequate number of independent members, taking into account the size of the Company and its shareholder structure, but this shall never be less than one quarter of the total number of Board members.	Comply	2.8.
II.1.2.3	The independency assessment of its non-executive members carried out by the Board of Directors shall take into account the legal and regulatory rules in force concerning the independency requirements and the incompatibility framework applicable to members of other corporate boards, which ensure orderly and sequential coherence in applying independency criteria to all the company. An independent executive member shall not be considered as such, if in another corporate board and by force of applicable rules, may not be an independent executive member.	Comply	2.8.

II.1.3. ELIGIBILITY AND APPOINTMENT

II.1.3.1	Depending on the governance model adopted, the Chairman of the Statutory Audit Board, or of the Board Audit Committee or of the Financial Matters Committee shall be independent and possess the necessary skills	Comply	2.11.

	to perform their duties.		
II.1.3.2	The selection process of candidates for non-executive members shall be conjured so as prevent interference by executive members.	Comply	2.8.
II.1.4.	POLICY ON THE REPORTING OF IRREGULARITIES		
II.1.4.1	The Company shall adopt a policy of reporting irregularities that allegedly occurred, which includes the following information: i) the means through which such irregularities may be reported internally, including the persons that are entitled to receive the reports; ii) how the report is to be handled, including confidential treatment, should this be requested by the reporter.	Comply	2.13.
II.1.4.2	General guidelines from this policy should be disclosed in the Corporate Governance Report	Comply	2.13.
II.1.5.	REMUNERATION		
II.1.5.1.	The remuneration of the Members of the Board of Directors shall be structured so that the formers' interests are capable of being aligned with the long-term interests of the company. Furthermore, the remuneration shall be based on performance assessment and shall discourage taking on extreme risk. Thus, remunerations shall be structured as follows: i) The remuneration of the Board of Directors carrying out executive duties shall include a variable element which is determined by a performance assessment carried out by the company's competent bodies according to pre-established quantifiable criteria. Said criteria shall take into consideration the company's real growth and the actual growth generated for the shareholders, its long-term sustainability and the risks taken on, as well as compliance with the rules applicable to the company's activity; ii) The variable component of the remuneration shall be reasonable overall as regard the fixed component of the remuneration and maximum limits shall be set for all components. iii) A significant part of the variable remuneration shall be deferred for a period not less than three years and its payment shall depend of the company's steady positive performance during said period; iv) Members of the Board of Directors shall not enter into contracts with the company or third parties that will have the effect of mitigating the risk inherent in the variability of the remuneration established by the company; v) The Executive Directors shall hold, up to twice the value of the total annual remuneration, the company shares that were allotted by virtue of the variable remuneration schemes, with the exception of those shares that are required to be sold for the payment of taxes on the gains of said shares; vi) When the variable remuneration includes stock options, the period for exercising same shall be deferred for a period of not less than three years; vii) The appropriate legal instruments shall be established so that in the event of a Director's dismissal without due cause, the envisaged compensation shall not be paid out if the dismissal or termination by agreement is due to the Director's inadequate performance.	Comply	2.12.
II.1.5.2	A statement on the remuneration policy of the Board of Directors and Supervisory Board referred to in	Comply	2.12.

II.1.5.3	<p>Article 2 of Law No. 28/2009 of 19 June, shall contain, in addition to the content therein stated, adequate information on: i) which groups of companies the remuneration policy and practices of which were taken as a baseline for setting the remuneration; ii) the payments for the dismissal or termination by agreement of the Directors' duties</p> <p>The remuneration policy statement referred to in Article 2 of Law No. 28/2009 shall also include the directors, within the meaning of Article 248-B/3 of the Securities Code, whose remunerations contain an important variable component. The statement shall be detailed and the policy presented shall particularly take the long-term performance of the company, compliance with the rules applicable to its business and restraint in taking risks into account.</p>	Comply	2.12.
II.1.5.4	<p>A proposal shall be submitted at the General Meeting on the approval of plans for the allotment of shares and/or options for share purchase or further yet on the variations in share prices, to members of the Board of Directors and Supervisory Board and other managers within the context of Article 248-B/3 of the Securities Code. The proposal shall mention all the necessary information for its correct assessment. The proposal shall contain the regulation plan or in its absence, the plan's conditions. The main characteristics of the retirement benefit plans established for members of the Board of Directors and Supervisory Board and other managers within the context of Article 248-B/3 of the Securities Code, shall also be approved at the General Meeting.</p>	Comply	2.12.

1. Shareholders' General Meeting

1.1. Board of the Shareholders' General Meeting: composition and duration of the mandate

The Board of the Shareholders' General Meeting was elected at the Shareholders' Annual General Meeting of Sonae Indústria held on 28th April 2009, for the mandate 2009-2011 and is composed of:

- João Augusto Esmeriz Vieira de Castro - Chairman
- António Agostinho Cardoso da Conceição Guedes - Secretary

The company provides human resources and logistical support to the Members of the Board of the Shareholders' General Meeting which is appropriate for their requirements through the corporate legal department. This department actively collaborates in the preparation of general meetings, ensuring the publication of the respective notices, receiving and controlling all communications from shareholders and intermediaries and works closely to ensure the logistical aspects of the meeting.

1.2. Remuneration of the Chairman of the Board of the Shareholders' General Meeting

The remuneration of members of the Board of the Shareholders' General Meeting consists of a fixed fee, determined considering the company situation and market practices.

The remuneration of the Chairman of the Board of the Shareholders' General Meeting in 2011 amounted to 5,000 Euros.

1.3. Voting Rights and Shareholder's Representations at General Meeting

Under the terms of Sonae Indústria's Articles of Association, the Shareholders' General Meeting is composed only of shareholders with voting rights who provide evidence of their ownership, according to the terms established by law.

The Article 23^o-C of the Securities Code, added by Decree-Law No. 49/2010 of May 19th, establishes that, who is entitled to participate, discuss and vote in the Shareholders' General Meeting, are shareholders who at the record date, which corresponds to 0 hours of the 5th trading day prior to the date of the meeting, hold at least one vote, according to law and the statutes.

At the Annual General Meeting held in 2011, the new legal rules were already applied and it was decided on that General Meeting to change the Articles of Association to adapt to them.

In relation to share blocking in the event of suspension of the general meeting, it is to apply what is stated in the law.

Under the terms of Sonae Indústria's Articles of Association, shareholders may be represented at Shareholders' General Meetings under the terms established by the law and by the respective notice of the meeting.

To each share corresponds one vote.

Under Sonae Indústria's Articles of Association, Shareholders' General Meetings can convene at the first session, as long as shareholders representing over fifty percent of the Company's share capital are present or represented.

All decisions at Shareholders' General Meetings are taken by simple majority except in those situations in which a higher percentage is required by law.

The Company's Articles of Association stipulate that, while the Company is regarded as a listed and "publicly traded company", shareholders are allowed to vote by post in relation to all items on the agenda of the Shareholders' General Meeting, following the rules for the exercise of voting by post. The Company's Articles of Association establish that votes can only be considered when sent to the headquarters of the Company by registered post with notification of receipt addressed to the Chairman of the Shareholders' General Meeting. These votes should be received at least three days before the date of the General Meeting and are subject to the normal rules regarding evidence of share ownership. Postal votes are considered negative votes in relation to any proposals presented after the date on which they were issued. A standard form for postal voting is available at Sonae Indústria's corporate website www.sonaeindustria.com and its head offices.

Sonae Indústria Articles of Association stipulate that the postal voting may be exercised by electronic means if this medium is made available to shareholders and is included in the notice of the meeting. This possibility results from the amendment made in the Articles of Association during the last General Meeting, and therefore has not yet been used.

The preliminary information for the General Meeting and the proposals submitted by the Board of Directors are available at the time of disclosure of the notice of meeting.

Following the Annual General Meeting held on 31st March 2011, Sonae Indústria disclosed to the market the content of the proposals presented and deliberations taken at such Shareholders' General Meeting. Moreover, Sonae Indústria posted in its website on the same date information regarding represented capital, voting results for each proposal, as well as the content of the proposals presented at such General Meeting. This information will be maintained on the company's website for no less than a 3 year period, so that shareholders can have access to them.

At the Shareholders' General Meetings held on the 31st March 2011, none of the Shareholders' Remuneration Committee members were present due to agenda constraints.

As stated in the Company's Articles of Association, the Shareholders' General Meeting is responsible for fixing the remuneration of the members of the governing bodies or electing a committee for this purpose. The Sonae Indústria Shareholders' Annual General Meeting in 2009 elected the Shareholders' Remuneration Committee for the current mandate, and the Annual General Meeting held in March 2011 decided to increase to three the number of members of the Shareholders' Remuneration Committee, appointing Belmiro Mendes de Azevedo to fulfill the vacancy (the Shareholders' Remuneration Committee is described in section 2.12. of this report).

The Shareholders' Remuneration Committee submitted to the shareholders a proposal on the remuneration policy for members of the governing bodies and other managers as well as a regulation of the grating plan of Sonae Indústria's shares under the Medium Term Variable Bonus which was approved by the Annual General Meeting

Regarding the performance of members of the Board of Directors, in all Annual General Meetings is included, in the terms of the law, a point on the agenda regarding the general assessment of the administration and supervision of the company where, if they so wish, shareholders can discuss the performance of the members of the administration.

The remuneration policy and a shares granting plan approved at the 2011 Annual General Meeting provides that the Medium Term Variable Bonus of executive directors of the company and of executive directors of other subsidiaries or employees who are eligible, is paid by delivery of own shares at no cost to those directors and employees, setting out how such an allocation is made, keeping the company always the choice of delivering, in its place, the cash value.

Sonae Indústria, as well as companies directly or indirectly dependent, did not approve any regulation of option of own shares to Board Members or staff.

Sonae Indústria has no system of retirement benefits.

The Company has not adopted any measures that would hinder the success of a public tender offer for the purchase of the Company's shares nor the company's Articles of Association limits the number of votes that may be held or exercised by a sole shareholder.

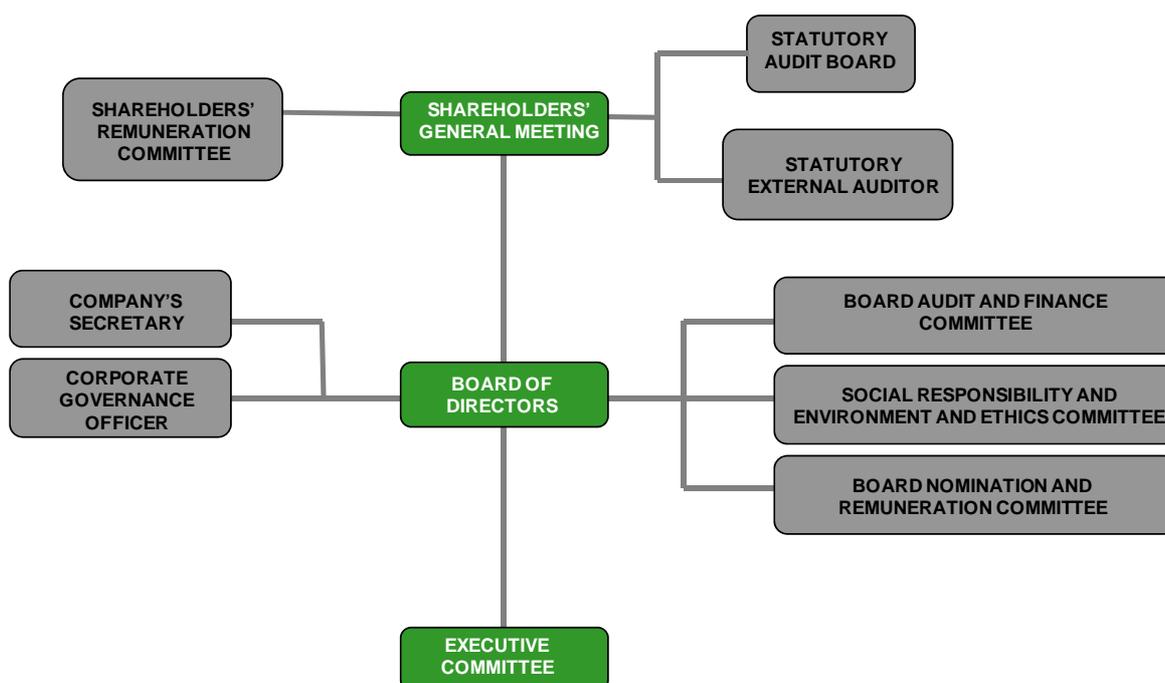

On December 31st, 2011 there were financings in the amount of about 26 million Euros, regarding which the respective creditors are able to consider the debt as matured in case of shareholder control changes.

The Company has not entered into any kind of relevant agreement that would be subject to change or termination in the event of transfer of control of the company. Furthermore, it does not envisage defensive measures that instigate immediate serious asset erosion in the company in the event of transmission of the Company's control or change in the composition of the Board of Directors.

No agreements exist relating to compensation or payments made to directors or employees because of contract termination due to a change in company control.

2. Corporate Governing and Auditing Bodies

SECTION I – General Issues

2.1. Corporate Governing Bodies

The Sonae Indústria's Articles of Association define a corporate governance model of the company known as the "Reinforced Latin Model", which implies that the company has a Board of Directors, Statutory Audit Board and Statutory External Auditor.

The Corporate Governance Officer examines annually the advantages and possible disadvantages of adopting this model and reports his conclusions to the Board of Directors.

The Board of Directors believes that the model favours the interests of the company and its shareholders, being effective and having not faced any constraints to its operation.

2.1.1 Board of Directors

Based on the Articles of Association, the Board of Directors may be composed of an even or odd number of members, ranging from a minimum of three to maximum of thirteen, elected at a Shareholders' General Meeting.

Sonae Indústria's Board of Directors was on the 31st December 2011 composed of 7 members, given that the administrator Per Knuts resigned as a director in March 2011 and at the Annual General Meeting held in the same month, it was decided to reduce the number of members of the Board of Directors to eight members and that the former Chief Executive Officer Carlos Bianchi de Aguiar, resigned as director in July 2011 and was not replaced.

Moreover, in August 2011 the director Thomas Nysten died, and the Board of Directors proceeded to replace it, co-opting a new director.

From the current 7 directors, 5 of them were elected at the 2009 Shareholder's Annual General Meeting for the mandate 2009-2011; João Paulo dos Santos Pinto, was elected until the end of the current term, at the 2010 Annual General Meeting and Albrecht Olof Lothar Ehlers was co-opted by the Board of Directors on September 8, 2011, to replace the director Thomas Nysten who died in August of that year.

The Board of Directors of Sonae Indústria is composed of:

- Belmiro Mendes de Azevedo - Chairman (Non Executive)
- Álvaro Cuervo García (Non Executive and Independent)
- Duarte Paulo Teixeira de Azevedo (Non Executive)
- Albrecht Olof Lothar Ehlers (Non Executive and Independent)
- Rui Manuel Gonçalves Correia (Executive)
- João Paulo dos Santos Pinto (Executive)
- Christophe Chambonnet (Executive)

The Chairman of the Board of Directors, who is elected by the Board, has a casting vote.

As stipulated by the Company's Articles of Association, the Board of Directors meets once a quarter and additionally whenever the Chairman or two of its members call a meeting. All decisions taken are recorded in the respective minutes. According to the Articles of Association, when a Board member misses two meetings, in a row or every two, this will be considered a definitive absence, if the justification has not been accepted by the Board of Directors.

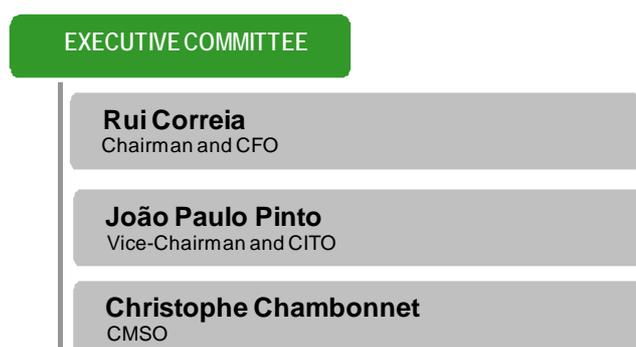

Six Board meetings were held in 2011. The Board of Directors can only deliberate if the majority of its members are present or represented, and decisions are taken by a majority of the votes of the Board members present or represented and of those who vote by post.

According to Corporate Governance best practices, the Board of Directors undertakes periodically a formal self-assessment with the help of an external consultant. The last assessment was in 2008. The assessment was designed to evaluate the way of functioning of Board and the respective Committees, to evaluate Corporate Governance at Board level and to propose measures for further improvements. The measures identified in 2008's assessment have already been implemented. Through this process each director has the opportunity to assess his / her colleagues, express his / her views on a number of items related to their performance, having each director the opportunity to comment the analysis performed by his/her colleagues. This entire process is conducted with the assistance of an external consultant.

To improve the operational efficiency of the Board of Directors and meet best practice in Corporate Governance, the Board of Directors appointed 3 Board Committees with specialized competences and a Corporate Governance Officer. The Ethics Committee which existed previously was extinguished at the end of 2011, and integrated as a sub-commission of the Social Responsibility and Environmental Committee, which is then called Social Responsibility, Environmental and Ethics Committee. These committees are described under the chapter 2.14 of this report.

2.1.2 Executive Committee

The Executive Committee is appointed by the Board of Directors and is composed of 3 members.

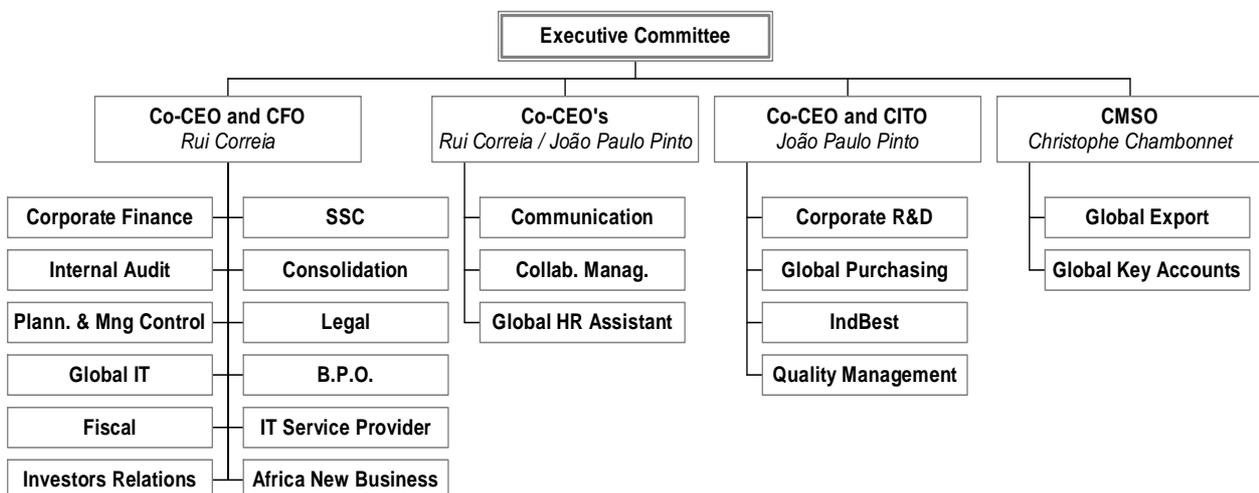

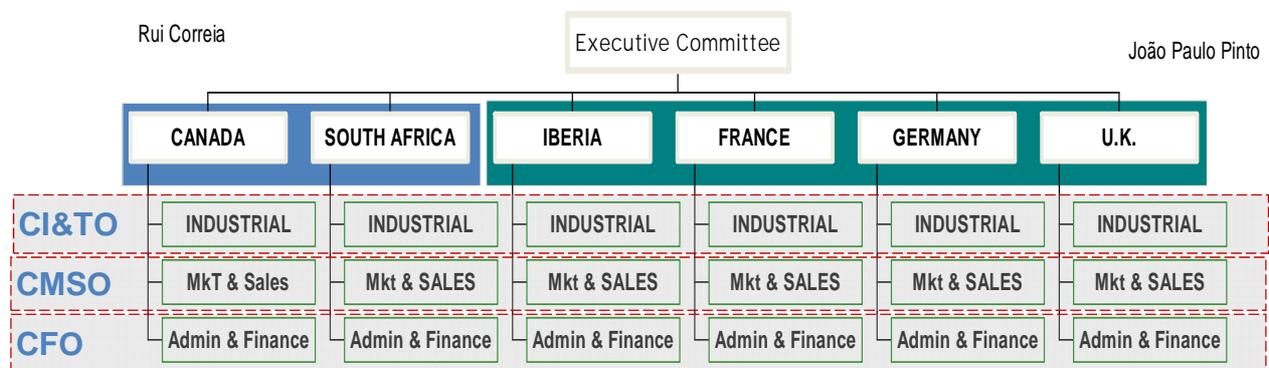

The Board of Directors has delegated powers to the Executive Committee to manage day-to-day operations of the Company except:

- a) appointing the Chairman of the Board;
- b) co-opting a substitute for a member of the Board;
- c) convening Shareholders' General Meetings;
- d) approving the Annual Report and Accounts;
- e) granting any pledge, guarantee or charge over the Company's assets;
- f) deciding to change the Company's headquarters or to approve any share capital increases;
- g) deciding on mergers, de-mergers and modifications to the corporate structure of the Company;
- h) approving the Company's Business Plan and Annual Budget;
- i) deciding key features of personnel policies including stock incentive plans and variable remuneration plans applicable to Executives and Senior Managers (Management Levels G4 and above), in areas that do not require resolutions from the Shareholders' Remuneration Committee or deliberations at Shareholders' General Meetings, together with decisions on individual compensation for Executives of Management Levels G3 and above, which competence is delegated to the Board Nomination and Remuneration Committee and, when these Executives are Officers of the Company, also require decisions from the Shareholders' Remuneration Committee or deliberations at Shareholders' General Meetings;

- j) defining or changing major accounting policies of any company included in the consolidation perimeter of Sonae Indústria Group;
- k) approving quarterly and half-yearly reports and accounts;
- l) selling, acquiring directly or by long-term lease or transacting in any other way, investments classified as tangible fixed assets where the individual transaction value is in excess of 5,000,000 Euros;
- m) purchasing or subscribing new shares in the share capital of any subsidiary company where the accumulated amount exceeds 20,000,000 Euros in any financial year;
- n) investing in any other company or in other financial assets when the accumulated value is in excess of 10,000,000 Euros in any financial year;
- o) making any other financial investment which exceeds the accumulated amount of 10,000,000 Euros in any financial year, unless in the ordinary course of business, namely in short term investments of available cash

- q) defining Sonae Indústria and Sonae Indústria Group strategy and general policies;
- r) defining the corporate structure of Sonae Indústria Group.

In 2010 the Executive Committee adopted a new matrix organization model, with the creation of two new functions, CMSO - Chief Marketing and Sales Officer and CITO - Chief Industrial and Technology Officer.

Following the resignation of Chief Executive Officer in July 2011, the Board of Directors decided to implement an interim management model with two CEOs, who were jointly responsible for the leadership and management of the company, Rui Correia was appointed as Chairman and João Paulo Pinto as Vice-Chairman, being the areas that report to the Executive Committee divided as follows:

The Executive Committee normally meets at least once every month, excluding August and additionally whenever the Chairman of the Executive Committee or the Vice-Chairman calls a meeting in writing, at least 3 days before the appointed date. Meetings can only take place if at least two of the members are present (either physically or by videoconference). The Chairman of the Executive Committee presides the meeting.

Decisions made by the Executive Committee are taken with the favourable votes of the Chairman and the Vice-Chairman of the Executive Committee. In the absence of quorum, the Executive Committee must submit the matter under consideration to the Board of Directors for deliberation.

2.1.3 Statutory Audit Board

The Statutory Audit Board may be composed of an even or odd number of members, with a minimum of three and a maximum of five with one or two substitutes appointed, depending on the number of members being either three or more, respectively.

The Statutory Audit Board was elected at the 2009 Shareholders' Annual General Meeting for the current mandate (2009-2011) and has the following composition:

- Manuel Heleno Sismeiro (Chairman)
- Armando Luís Vieira de Magalhães (Member)
- Jorge Manuel Felizes Morgado (Member)
- Óscar José Alçada da Quinta (Substitute - Member)

The Statutory Audit Board report is available on the company website together with other accountability documents. This report includes a description of the Statutory Audit Board's activity, which did not mention any constraints identified.

2.1.4 Statutory External Auditor

The Statutory External Auditor is PriceWaterHouseCoopers & Associados, SROC, Lda. represented by Hermínio António Paulos Afonso.

2.1.5 Company Secretary

The Company secretary and his/her substitute are appointed by the Board of Directors and have a 3-year mandate aligned with the mandate of the other corporate governing bodies, having been designated in 2009 for the new mandate (2009-2011). The Company secretary shall perform those duties established by law.

The Company secretary and her substitute are:

Permanent: Júlia Maria Moreira da Silva Santos
Substitute: Patrícia Isabel Chemega dos Santos

2.2. Internal Control, Internal Audit and Risk Management

2.2.1 Internal Control

Sonae Indústria is based on integrity and ethical values that emanate from the top down with the example then being set by management.

The different governing bodies have been born from a management philosophy and operating style based on a strong organizational structure with adequate assignment of authority and responsibilities. Sound Human Resource policies and procedures and the existence of the Code of Conduct are enshrined in such structure.

Sonae Indústria faces a variety of risks from external and internal sources which must be assessed and we have instilled in our company a culture of prevention and early detection. As you will see subsequently, an **Enterprise-Wide Risk Management Framework** was developed and is continually updated.

Policies and procedures have been developed that help ensure management directives are carried out. Sonae Indústria has a dedicated team in **Business Process & Organization** which through working with local operations and central departments, acts as a Centre of Excellence in accomplishing key objectives such as: prioritising, developing and implementing processes (including control activities); maintaining a Process Library (knowledge and documentation); establishing process best practices; and, evaluating process performance. Sonae Indústria has a huge range of activities in place as diverse as approvals, authorizations, verifications, reconciliations, reviews of operating performance, security of assets and segregation of duties.

Pertinent information is identified, captured and communicated within a form and timeframe which enables people to fulfill their responsibilities. Sonae Indústria has a **Planning and Management Control** department which supported by robust information systems, produces reports containing operational, financial and compliance-related information. The **Accounting & Consolidation** department is responsible for the preparation of the consolidated financial information based on reporting packages from the Administrative and Financial responsables of each country. The centralised accounting back-office (**Shared Service Center**) performs the accounting of all subsidiaries, with the exception of the Canadian, thus helping to guarantee alignment of policies and procedures and strengthening controls.

Internal control systems are monitored. Ongoing monitoring activities exist, namely regular management and supervisory activities. Separate evaluations are conducted by the internal audit department, whose scope and frequency depend primarily on an assessment of the risks and effectiveness of ongoing monitoring procedures.

There are procedures for periodic reporting to management and supervisory bodies of major internal control deficiencies and breaches of procedures and policies set by Sonae Industria.

Sonae Indústria has a reasonable level of confidence in the internal control framework which is currently in place. Communication of the Vision, Values and Principles throughout the organization reinforces the importance in terms of ethical behaviour. The existence of the Code of Conduct, of the Whistleblower tool and the Éthics Subcommittee, enhance the control culture of the organisation.

2.2.2 Internal Audit

Internal Audit is an independent and objective activity, which aims helping Sonae Industria to achieve their goals by participating in the process of value creation. Uses a systematic and structured approach to evaluate and improve the effectiveness of risk management, internal control procedures and corporate governance.

Internal Audit operates in accordance with International Standards for the Professional Practice of Internal Auditing, established by the Institute of Internal Auditors, including its Code of Ethics.

In fulfilling its responsibilities, Internal Audit has access to any persons, records, information systems and assets deemed necessary.

Internal Audit reports functionally to the Board Audit and Finance Committee (BAFC) and to the Statutory Audit Board.

The planning of the activity of Internal Audit is essentially developed based on a prior assessment of the systematic business risks of Sonae Indústria. The annual plan of Internal Audit activity is approved in advance by the Executive Committee and submitted to the Board Audit and Finance Committee (BAFC) and to the Statutory Audit Board.

Descriptive reports of the activity of Internal Audit are periodically prepared and sent to the Executive Committee, the Board Audit and Finance Committee (BAFC) and to the Statutory Audit Board of Sonae Indústria, which includes the summary of significant internal control deficiencies and shortcomings in procedures and policies set by Company.

The reporting system implemented ensures regular feedback, a proper review of the activities and the possibility to adjust the plan of activities to emerging needs.

Board Audit and Finance Committee (BAFC) and to the Statutory Audit Board are responsible for overseeing the effectiveness of the internal audit function. Accordingly, Internal Audit has developed a quality assurance and quality promotion, which includes ongoing analysis and regular and periodic evaluations of the quality conducted internally and externally.

2.2.3 Risk Management

Risk Management is a key concern within the Sonae Indústria culture and is present in all management processes, forming part of the delegated responsibility of managers and employees at all levels within the Sonae Indústria Group.

Risk Management comprises the process of identifying potential risks, analysing their possible impact on the organisation's strategic goals and seeking ways to minimise the probability of their materialisation, in order to determine the best procedures to manage exposure to them.

A global approach is in place to assure a suitable and balanced coverage of the operational risk through its transfer to our reinsurance panel. Sonae Indústria developed various Global programs to place the risk in the insurance local market, aiming to cover:

- Property damage (including machinery breakdown) and Business Interruption;
- Damage in the transport of material;
- Damage caused to third parties (Liability);
- Environmental damage;
- Customer payments delays and Insolvency.

Sonae Indústria adopts global policies as a support to its processes of risk management and is committed to improving its assets protection and prevention levels to reinforce the partnership with the insurance market.

2.2.3.1 Risk Management Organisation

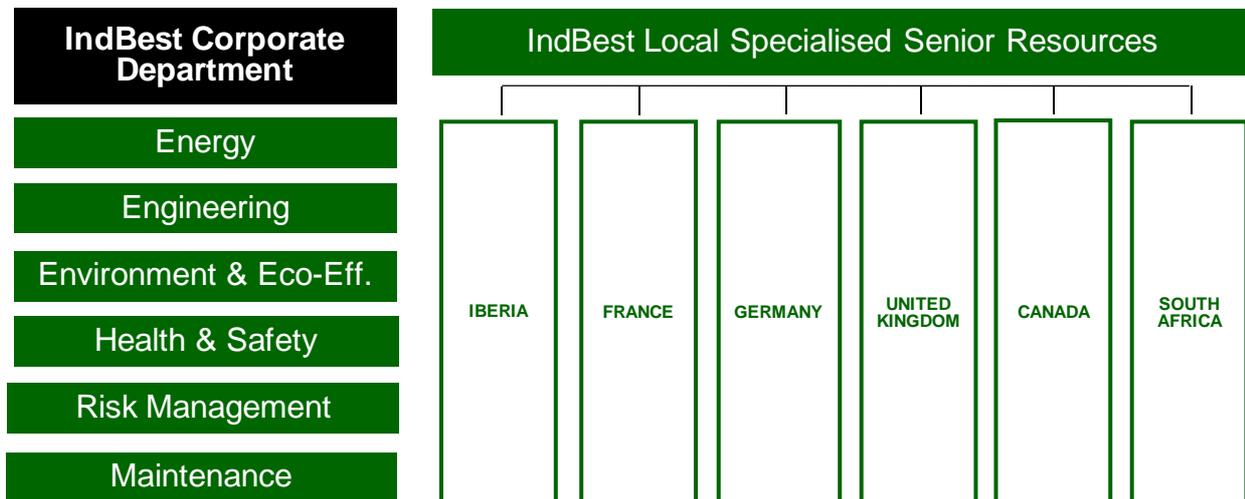

The production of wood-based panels is an industrial activity with a significant operational risk arising from fire and explosion. Consequently, the operational risk

management is active in the implementation of standards and the choice of systems that are capable of reducing industrial unit risks.

Recognising this importance and the transversal nature of the function, Risk Management is integrated in the department responsible for the consolidation of best Industrial, Environmental, Energy, Maintenance and Health & Safety practices (Corporate Department IndBest).

The Risk Management department is separated in two functions - Operational Risk Management and Insurance Management - in order to focus on developing and implementing measures to mitigate risks in industrial operations, and in developing skills to be more efficient and effective in using insurance policies underwritten by the Group. The Risk Management Department consists of a central team of 2 full time members, one of which is responsible for Operational Risk Management and the other for Insurance Management. A formally coordinated network of Country Risk Officers exists in each of the countries where Sonae Indústria operates and at each of the sites there is a dedicated Plant Risk Officer.

The organisation of the IndBest (“Industrial Best Practices”) corporate department can be analysed in the chart below:

The Risk Management function is also related to the Corporate Planning and Management Control Department which is composed of 7 people, organised into three teams to better address the challenges and changes the businesses faces. These are the Corporate Reporting Team, which is also responsible for business analysis, the Investment Analysis and big projects Team and the Strategic Planning and Special Projects Team.

2.2.3.2 Process of Integrated Risk Management

At Sonae Indústria, Risk Management is based on a uniform and integrated methodology, denominated Enterprise-Wide Risk Management (“EWRM”).

In 2006, the systematisation process was consolidated, fully integrated and aligned with strategic business goals, aimed at prioritising relevant business risks and identifying procedures to mitigate their impact. The process covered the whole organisation, encompassing all countries and corporate functions.

The Risk model, which was built in 2004 and revised in 2006, aggregates the business risks into three categories (Business Division Risk, Business Process Risks and Risk Information for Decision Making) and contains the quantification of the relevance (impact on EBITDA and operating efficiency) as well as probability (frequency of the event or scenario occurring) of the critical risks for Sonae Indústria.

The Risk Model has been undergoing continuous updates and in 2008 a new risk was introduced, entitled “Community Concern”. This risk evaluates the influence – negative or positive - that Sonae Indústria could exert in the local community where its activities are developed.

In 2009 and in the context of the management of the Risk “Community Concern”, Sonae Indústria formally launched an environmental communication forum for the White River community in South Africa. This forum was set up under the project to expand production capacity in this industrial unit, which was completed in 2009. Community concerns focused mainly on issues related to dust and noise emissions, derived from the older parts of the industrial process. Consequently, an extensive investment plan to mitigate the problems observed will be implemented.

The management of financial risks, incorporated into the business process risks is carried out and monitored within the ambit of the finance function.

In March 2011 the process was revised and re-launched with a bottom up approach. This new exercise was planned in two major phases:

- Country Individual Risk Assessments resulting in a Country Risk Map
- Global assessment that, together with Country Risk Map, resulted in the inputs for the definition of Global Sonae Indústria Risk Map

The consolidated exercise will be the basis for the Global Sonae Indústria Risk Map to be defined by the Executive Committee.

2.2.3.3 Operational Risk Management

Given the risk associated with industrial activity at Sonae Indústria and being a world leader in the wood-based panels sector, it would be unacceptable to fail to recover from a catastrophic event on a “world class” scale. Thus, protection of core assets as well as loss prevention are constant concerns for our Group and these were defined as priorities for 2011.

In line with the Special Risks identified at the Corporate Standards of Operational Risk (CORS), a detailed action plan was launched in 2011 to mitigate the risk associated with thermal oil system.

The Risk Forum quarterly online meeting with all Risk Officers and Country Leads of Sonae Indústria was mainly dedicated to the follow up on the implementation of this new plan.

2.2.3.4 Corporate Operational Risk Standards (CORS)

This project was developed to ensure standardisation of processes and procedures across all geographies in an effort to improve operational risk management by leaving little or no room for uncertainty.

The CORS were developed with reference to international standards such as NFPA¹⁵ and/or FM¹⁶ data sheets, considering the best practices of the wood industry and good fire protection engineering practices existing at Sonae Indústria.

¹⁵ National Fire Protection Association

All procedures were developed by a team with the Corporate Risk Management, Global Insurance Broker, Fronting Insurance Company and external consulting entity recognised by the entire insurance panel who guaranteed validation of the output.

Internal departments were also involved as active partners in the entire process to guarantee a wide scope of the project and to avoid transversal implications.

The Corporate Operational Risk Standards (CORS) are divided into three areas:

1. Management Programs and Procedures:

- Best Industry Practices in Loss Prevention involving the Human Element;
- Preparation for emergencies;
- Management of Programs (maintenance, equipment inspections, training, contractors, housekeeping).

2. Fire Protection Systems:

- Reference to international recognised standards, mainly NFPA;
- General requirements in fire detection and protection of industrial premises, fire water supply specifications and building materials characteristics;
- Integration of component for Surveillance practices (hardware).

3. Special Hazards:

- World class developed knowledge in fire detection and protection inherent to the wood based panels industry: wet and dry particle handling and transport, dryers, hot presses;
- Specific issues such as, thermal and hydraulic oil installations, electrical cabinets, and rooms, or transformers.

In 2011, 2 new standards were created to mitigate specific risks according to the necessary process of improving and updating. All changes were previously subject to approval by Risk Engineers of the Leading Insurance Company and External Risk Consultant.

2.2.3.5 Inspections

External Risk Inspections

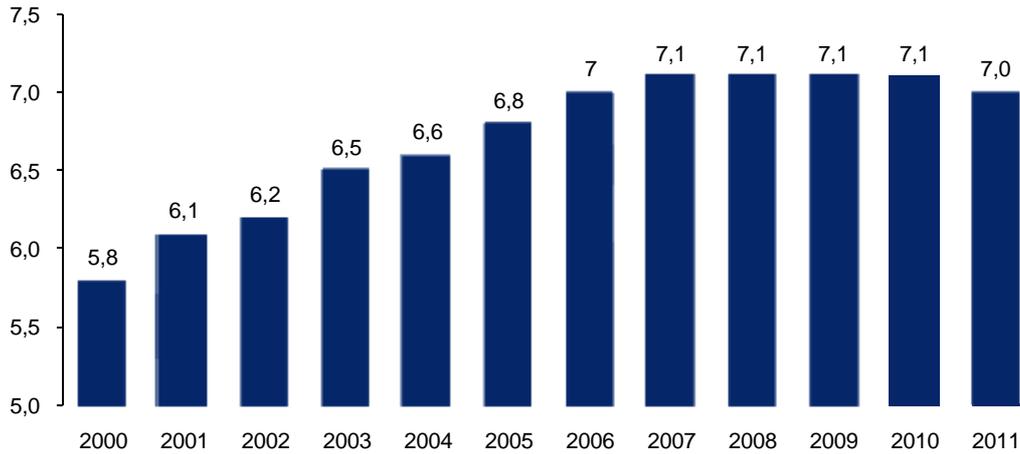

Since 2009, the CORS have become the processes and procedures by which the audit risks are oriented to check the exposure of each plant. This permitted greater transparency and harmonisation in the audit process.

To achieve this harmonisation we had to work with the External Risk Consultant company and, in the 2011 scheduled surveys, revaluated the existing ratings to align the evaluation method across the Group. This had an immediate effect on the overall QIN (Quality Index Number) that reduced 0.1 by December 2011.

Apart from this, the format of the external audits remains unchanged – inspections to all sites every two years. Subsequently, a report is issued with a set of recommendations for each of the plants visited. Since 2000, the overall QIN of Sonae Indústria has improved from 5.8 in 2000 to 7.1 in 2009 (on a scale from 0 to 10). During 2011 10 external audit programs were performed and the overall QIN of Sonae Indústria resulted in 7.0 (on a scale from 0 to 10).

¹⁶ Factory Mutual

QIN Sonae Indústria

Internal Risk Inspections

An internal visit is made to each plant every 18 months to review the status of the previous internal and external recommendations as well as compliance with Corporate Operational Risk Standards.

The reporting created in 2010 only allowed a qualitative evaluation and therefore it was not effective enough to enable comparisons between sites.

In 2011, and based on this model, a development was made to create a tool to effectively measure and rate the plants according to the risk profile.

Simulations were made in some industrial sites to validate the new format before final development of this informatics platform.

2.2.3.6 Self Inspection Form

A Quarterly Control self-assessment procedure using a Self Inspection Form has been carried out by each plant since 2000.

With the implementation of CORS, a new software application including the necessary updates was launched in the first quarter of 2009.

In order to enable a quantitative evaluation of the gap between guidelines and the real situation on each plant we engaged the development of a new Self Inspection Form.

This process was developed based in the new Internal Risk template. The aim is to have the same form for the Self Inspection Form and Internal Risk Inspections clearly distributed by the same themes.

With this changes we will effectively merge two standalone activities and create a common tool that standardizes the cycle of the Risk Management activity, simplifies the work done in the plants and allows a more transparent, understandable and useful process.

2.2.3.7 2004-2013 Risk Plan

Each individual plant plan (which is updated annually) defines a set of measures to be taken towards achieving full compliance with the Corporate Operational Risk Standards by 2013. The main objectives encompass:

- Improving Sonae Indústria's Installations Risk Standard with a view to increasing employee and asset safety, and avoiding eventual periods of business interruption;

- Obtaining a payback reflected in the insurance premium (demonstration of real and tangible commitment to loss prevention);
- Forming the basis for preparation of the annual budget for investment in Loss Prevention measures and establishing priorities based on the impact on Loss Prevention.

The 2004-2013 Risk Plan forms an integral part of the Industrial Master Plan of Sonae Indústria, which consists of the investment planning of each plant for the next 5 years.

2.2.3.8 Insurance Premium Distribution

Sonae Indústria's global insurance premium is charged to each plant with 50% being allocated according to insurance market prices and 50% being based on the plant's measured risk quality allocated (QIN). The former is calculated in line with "stand alone" local market insurance premium levels and the latter according to the QIN of each plant.

2.2.4 Responsibility of the management and auditing bodies in the Internal Control and Risk Management activities

It is the responsibility of the Board of Directors to create the necessary structures and services to ensure that the internal control and risk management system works properly. For this purpose, specific departments were created, some years ago, composed by specialized teams - Internal Audit and Risk Management. The main function of the Internal Audit department is to monitor compliance with procedures and policies defined and to report to the Board of Directors on any irregularities found. The Risk Management department must analyse the potential risks of the business and implement the standards as well as the systems that can reduce those risks.

The person responsible for the Internal Audit department reports functionally to and meets the Statutory Audit Board at least twice a year as well as the Board Audit and Finance Committee, whose chairman is an Independent Director. Both Governing Bodies can request information or clarifications whenever they wish.

Additionally, it is the Board Audit and Finance Committee particular duty to manage the risk, internally control the business processes and businesses as well as analyse the results of the Internal and External Audit.

The competences of the Statutory Audit Boards include reviewing the effectiveness of the risk management system as well as that of the internal control and audit systems. The Statutory Audit Board has access to all the information whenever it deems necessary and can liaise with the heads of the respective departments.

The Statutory External Auditor reviews the implementation of policies and remuneration systems as well as the effectiveness and operation of the internal control mechanisms. In the event of finding any defect or irregularity, this will be reported to the Statutory Audit Board.

2.3. Functioning Regulations of the Governing Bodies

The Board of Directors, Executive Committee and Statutory Audit Board have functioning regulations which can be found at the site www.sonaeindustria.com.

No rules have been set for any incompatibilities or cumulative number of positions, being applicable the law provisions.

SECTION II – Board of Directors

2.4. Identification of the main economic, financial and legal risks to which the company is exposed in its activity

The main financial risk that Sonae Indústria is exposed to is credit risk over its customers, which is the risk of a customer either paying late or failing to pay the acquired products due to lack of liquidity. To mitigate this risk, Sonae Indústria has credit management procedures and credit approval processes in place together with insurance policies whenever necessary.

The economical risks that Sonae Indústria is exposed to include, Interest Rate Risk, Foreign Exchange Risk and Liquidity Risk.

Interest Rate Risk depends on the proportion of floating rate debt on Sonae Indústria's consolidated Statements of Financial Position and the consequent cash flows related to interest payments. As a general rule, Sonae Indústria does not hedge its exposure to floating interest rates through financial derivatives. This approach is based on the principle of the existence of a positive correlation between the interest rate levels and the "operating cash flow before net interest charges" which creates a natural hedge on the "operating cash flow after net interest charges" for Sonae Indústria.

Foreign Exchange Risk derives from being a diversified Group with subsidiaries spread throughout three different continents. Consolidated Statements of Financial Position and Profit and Loss are exposed to foreign exchange translation risk and Sonae Indústria subsidiaries are exposed to foreign exchange risk from both translation and transaction type. Whenever possible and economically viable, Group subsidiaries aim to offset assets and liabilities denominated in the same foreign currency.

Liquidity Risk aims mainly to ensure that the company can obtain the financing required to properly carry on its business activities on time, implement its strategy and meet its payment obligations when due, while avoiding the need for having to obtain funding under unfavourable terms. For this purpose, liquidity management at Sonae Indústria mainly comprises consistent financial planning, diversification of financing sources and diversification of debt maturities issued.

Regarding Legal Risks, the main risk of the Group's business relates to legislative changes that may occur at the level of the activity (environmental law and labour, among others) that can encumber the activity to such an extent that its profitability may be affected.

2.5. Powers of the Board of Directors

The Board of Directors is empowered to ensure the management of the Company in accordance with the scope established in the Company's Articles of Association and under the law. Currently, the Board of Directors may deliberate on increases in the Company's share capital of up to one thousand and two hundred million Euros, on one or more occasions, in accordance with the law.

2.6. Policy of functions rotation of the Board of Directors and appointment and replacement of members of the management and auditing bodies

The policy established by Sonae Industria in relation to the rotation of functions of the Board of Directors is not to define any policy in that area considering that there is no benefit to the company and to its shareholders, in rotating portfolios of the Board of Directors when the nominated members for each portfolio are competent and successful in its function.

Members of the Board of Directors are elected by the Shareholders' General Meeting. Groups of shareholders representing between 10% and 20% of the Company's share capital, may submit a stand-alone proposal to nominate a Director in advance of the Shareholders' General Meeting. Such shareholder cannot support more than one list of Directors and each list must identify at least two eligible persons to fill each position on the Board. If lists are submitted by more than one group of shareholders, the voting will be based on all of these lists.

In the event of death, resignation or temporary or permanent inability of any of the Directors, the Board of Directors is responsible for his or her replacement. If the Director in question was nominated by minority shareholders, a new separate election must be held.

Members of the Statutory Audit Board are also elected by the Shareholders' General Meeting. Statutory Audit Board permanent members who are temporarily unable to exercise functions or whose functions have ceased are replaced by substitute members, who will subsequently continue functions until the first Shareholders Annual General Meeting. This meeting will then proceed to fulfil the respective vacancies.

In the absence of the alternate positions, vacancies are filled through a new election.

The Statutory External Auditor is elected by the Shareholders' General Meeting following a proposal from the Statutory Audit Board.

In the absence of the elected Statutory External Auditor, it is the responsibility of the Board of Shareholders' General Meeting to appoint his substitute, subject to ratification by the following Shareholders' General Meeting. In the absence of designation within 30 days, the company governing bodies shall notify the Association of External Auditors who is entitled to appoint the external auditor.

2.7. Board of Directors, Board Committees, Statutory Audit Board and Ethics Committee Meetings attendance

Over the course of 2011, the number of meetings and attendance recorded for the Board of Directors, Board Committees, Statutory Audit Board and Ethics Committee (this Committee was extinguished during the Board of Directors meeting held in December 2011, being after that a sub-commission of the Social Responsibility and Environment Committee which was named Social Responsibility, Environment and Ethics Committee; as this change only occurred at the end of the year, the information below refers to the previous structure) were as follows:

Meetings and Attendance	Number of Meetings	Attendance
Board of Directors	6	91%
Executive Committee	22	100%
Board Audit and Finance Committee	5	83%
Social Responsibility and Environment Committee	2	75%
Board Nomination and Remuneration Committee	4	93%
Statutory Audit Board	6	100%
Ethics Committee	1	100%

All governing bodies and Committees have minutes from their meetings.

With the objective of maintaining the Board of Directors and the Statutory Audit Board permanently informed on decisions taken by the Executive Committee, minutes arising from the Executive Committee meetings are available to all Board of Directors and Statutory Audit Board Members. At the end of each year the Executive Committee prepares the calendar of meetings for the following year, and informing about it the Board of Directors and the Statutory Audit Board.

Members of the Executive Committee provide all information required by other members of the governing bodies both on time and in sufficient detail.

2.8. Independence of the members of the Board of Directors

The Board of Directors of Sonae Indústria is composed of seven (7) members, three (3) Executive and four (4) Non-Executives.

Of the Non-Executive Directors, 2 (two) are Independent as they are not associated with any interests group within the company, they do not hold nor do they act on behalf of shareholders with qualified shareholdings of 2% or more of the company's share capital. Moreover, they have not been re-elected for more than two mandates, in accordance with rules in paragraph 5 of article 414 of the Companies Law.

All Independent Members comply with the applicable rules of incompatibility determined in paragraph 1 of art. 414-A of the Companies Law, since it is understood that in regard to Albrecht Olof Lothar Ehlers, who despite being a member of the Supervisory Board of Glunz, AG, subsidiary of Sonae Indústria, the rule set forth in paragraph c) of that provision is not violated. In fact, on the one hand, such provision was developed for Supervisory Board members having to be interpreted when applied to members of the Board of Directors and, on the other hand, the Supervisory Board of Glunz, is in its essence an auditing board and not a management one.

The Independent Directors exercise an important influence over the decision-making process and development of company strategy and policy.

The Board of Directors evaluates the independence of the Non-Executive Board Members, applying the legal rules established for other governing bodies.

Usually, the members of the Board, executive and non-executives, are appointed by the Shareholders' General Meeting under a proposal from a shareholder. Therefore,

there is no interference in this process by the Executive members. In the event of absence of any director, the Board of Directors may in the terms of the law, make a co-option. This is the sole responsibility of the Board of Directors, since this is a matter not delegated to the Executive Committee. It is the responsibility of the Board Nomination and Remuneration Committee (which does not have any Executive Board Member) to submit a proposal for this co-option.

The Board of Directors includes in its management Report a description of the activities undertaken by the non-executive Board Members.

2.9. Professional qualification of the members of the Board of Directors, professional activities in the last 5 years and shares held, date of first appointment and date of term

SECTION III – Statutory Audit Board

2.11. Identification, Independence, mandate, qualifications and professional activities of the Statutory Audit Board members and evaluation of the Statutory External Auditor

2.11.1. Identification, Independence and mandate of Statutory Audit Board members

The Statutory Audit Board is composed by:

- Manuel Heleno Sismeiro (Chairman)
- Armando Luís Vieira de Magalhães (Member)
- Jorge Manuel Felizes Morgado (Member)
- Óscar José Alçada da Quinta (Substitute - Member)

All members of the Statutory Audit Board comply with the rules of incompatibilities referred to in paragraph 1 of art. 414-A and the criteria of independence set out in paragraph 5 of art. 414, both of the Companies Law.

To ensure at all times the independence of members of the Statutory Audit Board prior to their appointment, such members issued statements attesting not to incur in any of the incompatibilities provided in Article 414^o-A of the Companies Law. Additionally, they stated that they are not in any situation that affects their independence in accordance with paragraph 5 of Article 414^o of the same law and committed themselves to immediately notify the company of anything that may lead to their loss of independence or to any incompatibility during their mandate. Furthermore, they were also requested to complete questionnaires designed in the same terms as those used by CMVM.

The current members of the Statutory Audit Board were elected at the Shareholders' Annual General Meeting held in April 2009 for the mandate 2009 – 2011.

2.11.2. Professional qualification of Statutory Audit Board members, professional activities in the last 5 years and shares held

MANUEL HELENO SISMEIRO (Chairman of the Statutory Audit Board):

Degree in Finance, SCEF (Portugal), Accountant, ICL (Portugal). Currently he is a specialist consultant in the areas of internal audit and internal control and is Chairman of the Statutory Audit Board of OCP Portugal Produtos Farmacêuticos SA, Sonae Industria, SGPS, SA and Sonae Capital, SGPS, SA. Prior to this he was a partner at Coopers & Lybrand and Bernardes, Sismeiro & Associados and from 1998 to 2008 at PricewaterhouseCoopers - auditors and Statutory External Auditor and responsible for the Audit and official review in various activity sectors. He was also responsible for managing the office of those companies at Porto and Director of Audit Division in the period of 1998 – 2002 as well as member of the management board at PricewaterhouseCoopers.

ARMANDO LUÍS VIEIRA DE MAGALHÃES (Statutory Audit Board Member):

Bachelor of Accounting (former-ICP and current ESCAP), Degree in Economics (University of Porto), Executive-MBA European Management (IESF / IFG). Mr. Magalhães performed various functions in a credit institution (1964-1989) and since 1989 has practiced as an external auditor, first on a stand-alone basis but subsequently as partner of Santos Carvalho & Associados, SROC and currently of Armando Magalhães, Carlos Silva & Associados, SROC, Lda..

JORGE MANUEL FELIZES MORGADO (Statutory Audit Board Member):

Management Degree (ISEG, Technical University of Lisbon), MBA in Finance-IEDE Madrid, MBA in Management and Information Systems (Catholic University), Official External Auditor. Mr. Morgado held various roles as auditor in Coopers & Lybrand (1980-1989), responsible for Management Control and Internal Audit of the Coelima Group (1989-1991) before becoming a partner of Deloitte (1991-2004). From 2004 he has been an Official Statutory Auditor and Partner of Econotopia-Consultoria e Gestão, SA.

ÓSCAR ALÇADA DA QUINTA (Statutory Audit Board Substitute-Member):

Degree in Economics (University of Porto). Mr. Quinta has held various functions in both the administrative and financial departments of different companies (1982-1986) and since 1986 has provided services within the external audit of the Official Statutory Auditors Association. Through this activity in 1990 he was included in the List of Official External Auditors, a function which he works on exclusivity, initially on a stand-alone basis but subsequently as partner of Óscar Quinta, Canedo da Mota & Pires Fernandes, SROC.

2.11.4. Election and Evaluation of the Statutory External Auditor

The Statutory Audit Board proposed the election of the Statutory External Auditor at the Shareholders' General Meeting held in 2009, who is also the external auditor of the company. The proposed remuneration policy approved at the 2011 Shareholders' General Meeting states that the Statutory External Auditor of the company should be paid according to the normal levels of fees for similar services by reference to market information, as negotiated annually under the supervision of the Statutory Audit Board and of the Board Audit and Finance Committee.

The Statutory Audit Board meets the Statutory External Auditor whenever it deems fit and monitors their activities and conclusions from their work through the final audit reports. This allows them to evaluate the work of the external auditor. The Statutory Audit Board may if there is just cause, propose to the Shareholders' General Meeting the dismissal of the Statutory External Auditor since he is elected under the proposal of the Statutory Audit Board.

SECTION IV – Remuneration

2.12. Remuneration and Other Compensation of Board of Directors and Statutory Audit Board Members

Sonae Indústria's Shareholders' Remuneration Committee is appointed by the Shareholders' General Meeting for a three-year term and was elected at the Shareholders' General Meeting held in April 2009 for the mandate 2009-2011. At the Annual General Meeting held in 2011 the number of members of the Shareholders'

Remuneration Committee was extended to 3. Currently this committee is composed by Belmiro Mendes de Azevedo, Efanor Investimentos - SGPS, SA, represented by José Manuel Neves Adelino and Imparfin - SGPS, SA, represented by José Fernando Oliveira de Almeida Côte-Real.

The participation of Belmiro de Azevedo at the Shareholders' Remuneration Committee, who is also Chairman of the Board of Directors of the company, corresponds to the representation of shareholder interests in the Shareholders' Remuneration Committee, as he intervenes in that capacity. Belmiro de Azevedo does not participate in the discussion nor is in the moment of this meeting in which his own payment is discussed and therefore ensuring the necessary impartiality and transparency.

The representative of the Imparfin José Corte Real, works for the Efanor Group on Human Resources' area; his extensive knowledge and vast experience in Human Resources, namely in regard to remuneration policy contribute very positively to the work of the Shareholders' Remuneration Committee.

No company was hired to assist the Shareholders' Remuneration Committee nor the Board Nomination and Remuneration Committee. For the benchmark salary level of Board of Directors members, these Committees use multi-company studies prepared by international consultants present in Portugal which are available in the market.

At the Shareholders' Annual General Meeting held in 2011, a remuneration policy and a shares granting plan proposed by the Shareholders' Remuneration Committee was approved.

The remuneration and compensation policy of the Statutory Governing Bodies of Sonae Industria and other "Senior Management", complies with European guidelines, national legislation and the recommendations of the Portuguese Securities Market Commission (CMVM) and is based upon the understanding that initiative, competence and commitment are the essential foundations for delivering good performance and that pay should be aligned with the medium and long term interests of the company with a view to its sustainability.

In determining the remuneration policy comparisons are made with, on one hand, market studies prepared in Portugal and in other European markets, including those prepared by the specialised consultants Mercer and Hay Group and, on the other hand, remuneration practice at the companies that compose the PSI-20 of the Portuguese Stock Index.

The remuneration packages awarded to executive directors are established by reference to market research on "Top Executives" in Portugal and Europe, taking as reference the median position in the market for fixed remuneration and the third quartile for the total remuneration in comparable circumstances.

The fixed remuneration and target variable remuneration are decided by the Shareholders' Remuneration Committee based on proposals submitted by the Board Nomination and Remuneration Committee.

Fixed remuneration is aligned with the market benchmarks which are based on the equivalent practice at comparable companies.

The variable component of remuneration, awarded to executive directors, is subject to maximum percentage limits and is determined by performance criteria pre-established and measurable performance indicators - agreed with each executive director for each financial year.

The variable component of remuneration is measured by assessing the performance of a set of performance indicators, both business being mainly of an economic and financial nature "Key Performance Indicators of Business Activity" (Business KPIs) and individual, which may be either quantified and unquantified performance indicators "Personal Key Performance Indicators" (KPIs Individuals). The detail of the performance indicators and their specific weight in determining the actual remuneration awarded ensure the alignment of executive directors with the strategic objectives defined and compliance with the laws applicable to the company's activities.

For the calculation of the variable component of remuneration, an assessment of the individual performance is made by the Shareholders' Remuneration Committee, in coordination with the Board Nomination and Remuneration Committee. This assessment takes place upon the disclosure of the results of the company.

Thus, for each fiscal year, the business, performance and individual contributions to the collective success are assessed, which shall influence the award of fixed and variable component of the remuneration plan of each executive director.

In each year, the payment of up to fifty per cent, inclusive, of the value of the variable remuneration awarded to an executive director, as a result of the evaluation of the individual and the company's performance, is deferred for a period of three years. This variable deferred remuneration is composed by shares, being applicable the Plan of Granting Shares under the terms of the respective regulation. The company reserves the right to deliver, instead of shares, the corresponding value in cash.

The Remuneration Policy of the company maintains the principle of not granting compensation to directors, or members of other Statutory Governing Bodies, related with the termination of the mandate, whether such termination occurs at the end of respective term, or there is an early termination by whatsoever reason or basis, without prejudice of the company's obligation to comply with the applicable law.

The remuneration and compensation policy does not include any benefits, namely retirement benefits, to the members of management or supervisory boards and other "Senior Management".

To ensure the effectiveness and transparency of the objectives of the remuneration and compensation policy, the executive directors:

- have not, and will not, enter into agreements with the company or third parties that will have the effect of mitigating the risk inherent in the variability of the remuneration established by the company;
- must not sell, during their mandate, company's shares that they may have accessed through the award of the variable remuneration, up to two times the value of the total annual remuneration, except of those shares that are required to be sold for the payment of taxes on the gains of said shares.

In what respects to the Board of Directors of Sonae Indústria, the approved policy states that:

Executive Board Members (ED)

The remuneration Policy of the Executive Board Members includes:

- (i) a fixed component, which includes an Annual Salary paid in reference to one year period (salaries are paid 12 months) and an annual responsibility allowance,
- (ii) a Short Term Variable Bonus which is paid during the first quarter of the following year, and

- (iii) a Medium Term Variable Bonus attributable in April of the following year, as a deferred remuneration under the Plan of Granting Shares and respective regulation, which vests on the third anniversary of the attribution date.

(i) Individual compensation packages shall be defined in function of the level of responsibility of each ED and shall be reviewed annually. To each ED is attributed a classification named internally as Functional Group (“Grupo Funcional”). ED’s are classified under the Functional Groups of “Senior Executive” (G2) and “Executive” (G3). Such classification are structured according to Hay’s international model for the classification of corporate functions, thereby facilitating market comparisons, as well as helping to promote internal equity.

(ii) Short Term Variable Bonus shall be aimed at rewarding the achievement of certain predefined annual objectives, which are linked to both “Key Performance Indicators of Business Activity” (Business KPIs) and “Personal Key Performance Indicators” (Personal KPI’s). The target bonus to be attributed shall be based on a percentage of the fixed component of the compensation package, which shall range between 40% and 60%, depending on the ED’s classification. Business KPIs, which include economic and financial indicators, shall represent 70% of the Bonus and are objective indicators. The remaining 30% shall derive from Personal KPIs, with include both quantified and unquantified performance indicators. Actual amounts paid shall be based on the real performance (business and individual performances) and can represent anything from 0% to 140% of the target amount attributed;

(iii) The Medium Term Variable Bonus shall be aimed at enhancing the loyalty of EDs, aligning their interests with shareholders, and increasing their awareness of the importance of their performance on the overall success of the organisation. The amounts of the Medium Term Variable Bonus are established annually and can represent up to 100% of ED’s Short Term Variable Bonus. This amount in euro currency shall be divided by the average of the closing quoted share prices of the last thirty trading sessions prior to the Shareholders’ General Meeting or alternatively the previous to the 30th of April, if the Shareholders’ General Meeting takes place after this date, to determine the number of shares each ED is entitled to. The amount converted into shares shall be adjusted by any share capital change occurred or dividends distributed (Total Shareholder Return) during the deferral period of 3 years. On the vesting date, the shares shall be delivered free of cost, although the company retains an option to pay an equivalent value in cash.

Medium Term Variable Bonus (MTVB)

1. MTVB Characteristics

The MTVB is one of the components of Sonae Indústria remuneration policy. This component differs from others, as it has a restricted and discretionary character, being subject to the eligibility rules set out in the respective regulation.

The MTVB allows the beneficiaries to share with shareholders the value that is created as a result of their direct influence on the strategic direction and operating performance of the underlying businesses, measured according to the annual evaluation of their performance.

2. MTVB Placement

The MTVB is a way of aligning the interests of the executive directors with the objectives of the organization, reinforcing their commitment and strengthening the perception of the importance of their performance to the success of Sonae Indústria, reflected in the stock exchange capitalisation of the shares.

The value of the MTVB for each beneficiary corresponds to the entire medium term variable remuneration awarded to the executive directors under the Remuneration and Compensation Policy approved by the Shareholders' General Meeting.

3. Eligibility

Executive directors are eligible to participate in the Sonae Indústria MTVB.

According to the remuneration policy approved by the Board of Directors, other employees may also be eligible for the award of the MTVB, in the terms set forth in the above referred policy.

Eligible Members	Target value for the Medium Term Variable Bonus (% of the Short Term Variable Bonus awarded)
Sonae Indústria Executive Directors	up to 100%
Business Executive Directors	up to 50%
Employees	terms to be defined by the Board of Directors

4. Plan Duration

The MTVB is awarded annually for three years periods. From the beginning of the third consecutive plan there will be, at every moment, three overlapping three-year plans.

5. MTVB Reference Value

The medium term variable remuneration is valued at the date of its award at the closing share price at the stock exchange in Portugal. For this effect it will be used the average of the closing share price of the thirty trading sessions prior to the Shareholders' General Meeting or alternatively prior to 30th of April, if the Shareholders' General Meeting should be held after that date.

It is granted to the beneficiaries the right to acquire a number of shares determined by the ratio between the value of the short term variable bonus awarded and the share price at the awarding date determined under the terms of the preceding paragraph. This right may be exercised three years after its award.

The executive directors covered by this plan, acquire the shares without paying any price. The remaining employees to whom such right has been granted, acquire the shares pursuant to the conditions set forth by the Board of Directors.

In case, after being awarded the previously mentioned right but before its exercise, there is a distribution of dividends, a change in the nominal value of the shares, a change in the share capital of the company or any other change in the capital structure of the company with economic impact on the rights awarded, the number of shares, whose right of acquisition has been awarded, will be adjusted to an equivalent number taking into account the effect of those changes.

6. Delivery by the Company

At the exercise of the right to purchase shares awarded under the MTVB, the company reserves the right to deliver, instead of shares, the cash equivalent value of such shares on the date of the relevant exercise.

7. MTVB Term

The right to purchase the shares awarded under the MTVB becomes due three years upon their award.

8. Exercise Right Conditions

The right to purchase the shares at the end of the Plan is lost if, before the end of the three years period following its award, there is a termination of the relationship between

the beneficiary and the company, or any company that forms part of the Efanor Group, subject to the terms of the paragraphs below.

In the case of permanent disability or death of the beneficiary, his open MTVB will be valued at market value at that date, and the resulting amount will be paid to the beneficiary or to his heirs.

If a beneficiary retires, his rights under the MTVB will remain in force until settlement at the exercise date.

Non-Executive Board Members

The remuneration of the Non-Executive Members (NEDs) shall be based on market comparables and be structured as follows: (1) a Fixed Remuneration (of which approximately 15% depends on the attendance to the meetings of the Board of Directors or any Board Committees) is payable; (2) an annual responsibility allowance. No other variable remuneration or other compensation is payable to NEDs. The Fixed Remuneration is increased by up to 5% for NEDs serving as chairmanship of any Board Committee.

The evaluation of the Executive Board Members is jointly carried out by the Shareholders' Remuneration Committee in connection with the Board Remuneration and Nomination Committee (BNRC), as described in 2.14.3..

The pre-determined criteria for evaluation the Board Members are: objective criteria related to the success degree of implementation of initiatives and actions agreed to implement in that year, and subjective criteria are related to the contribution in terms of experience and knowledge to the discussions at the Board, the quality of preparation of

meetings and the contribution to discussions at the Board and Board Committees as well as the commitment to the success of the company, among others.

No payments were made for the dismissal or removal from directors.

The company does not have plans for the allotment of options for share purchases.

Statutory Audit Board

Regarding the Statutory Audit Board, the remuneration policy adopted provides that the remuneration consists of a fixed fee, determined taking into account the situation of the company as well as market practices and includes an annual liability allowance. The annual remuneration of the Chairman of the Statutory Audit Board in 2011 was 10,100 Euros and that of the remaining 2 members, 8,100 Euros each.

”Senior Management”

The remuneration policy approved by the Shareholders’ General Meeting provides that the remuneration policy applicable to persons who are considered “*dirigentes*” within the meaning of paragraph 3 of Article 248-B of the Securities Code, is equivalent to that adopted for the remuneration of other directors of the same function level and responsibilities without attributing any additional benefit compared to what is attributed for its functional group.

2.13. Policy of Communication Irregularities

During 2008 and with the formalisation of the Code of Conduct of Sonae Indústria, the procedure for reporting irregularities was defined. This is available on the company website www.sonaeindustria.com.

Employees and service providers may, on a confidential basis, report concerns about any behaviour or decision that in their opinion, does not respect the ethics or Code of Conduct.

Any possible case of irregularity should be sent via e-mail or post to one of the following addresses:

A meeting to clarify the alleged irregularity can then be arranged with the Corporate Governance Officer, when required

Each irregularity report will be received by the Corporate Governance Officer, who is responsible for initiating and supervising the investigation into all reports. Once the research is concluded and if the irregularity reported corresponds to wrongful conduct, the Ethics Subcommittee of the Social Responsibility, Environment and Ethics Committee, shall notify the situation to the superior of the employee or the Service Provider’s Company in order to apply corrective actions and / or initiate disciplinary proceedings.

As the Company wishes to encourage good faith reporting of any alleged irregularity while avoiding damage to the reputation of innocent persons initially indicated as allegedly suspected of wrongful misconduct, anonymous reports are not accepted.

The investigation will be conducted in a confidential manner and the Company ensures that there will be no discriminatory or retaliatory action against any employee or service provider who reports an alleged irregularity in good faith. If any employee or service provider believes that he or she has been retaliated against for reporting or participating in an investigation, he/she should immediately report such perceived retaliation to the Corporate Governance Officer.

The company provides a means by which to report irregularities on its internet.

The company maintains a record of all complaints and cases investigated as well as their findings which will be available for consultation by the statutory bodies and external auditor.

The **Code of Conduct** of Sonae Indústria contains a set of standards based on our shared values that govern the activities of Sonae Indústria. It applies to everyone employed by the Group, including members of the statutory bodies of Group companies, managing directors, senior executives, employees and people whose status is equivalent to that of employees, such as temporary staff and service providers. The Code sets out guidance on those matters of business ethics to be complied with by all Employees and service providers when carrying out their professional duties. During 2011, the Board of Directors decided including some changes in the Code of Conduct, which aim to reinforce the principle, already included in that Code, which means that all directors and employees of the Group have to guide their conduct by the strict compliance of the applicable laws.

Sonae Indústria adheres to and actively promotes the highest ethical standards of professional conduct at all levels of the Group. Commitment to standards of conduct must emanate from the top. Therefore, Sonae Indústria's top managers are expected to set an example for the rest of the organisation through their actions, by actively leading the adoption and by monitoring the enforcement of these standards.

It is particularly important that a commitment to these standards of conduct is accepted by all Employees and service providers at all Group companies, wherever they operate. Country operations are also required to adopt appropriate principles and actions to deal with specific ethical issues that may arise in their own countries.

The code of conduct of Sonae Indústria was defined in such a way that clearly explains the conduct to be followed with all stakeholders, as well as to connect it with the company's values. The code of conduct is structured in the following way:

Relations with Employees and service providers

- Knowledge sharing and personal development
- Innovation and initiative
- Respect, accountability and cooperation
- Confidentiality and responsibility
- Sustainability
- Conflict of interest
- Health and safety
- Social Conscience
- Communication
- Compliance

Relations with Shareholders and Other investors

- Creation of value
- Transparency
- Compliance

Relations with Governments and Communities

- Ethical Behaviour
- Social Conscience
- Tax Statement
- Environmental Awareness

Relations with Business Partners

- Customer Focus
- Integrity
- Ethical behaviour
- Transparency

Relations with Competitors

- Enforcement of competition laws
- Ethical behaviour

The complete code of conduct can be found at the company site www.sonaeindustria.com.

SECÇÃO V – Special Committees

2.14. Committees with special competences

To improve the operational efficiency of the Board of Directors and meet best practice in Corporate Governance, the Board of Directors appointed 3 Board Committees with special competencies, and a Corporate Governance Officer. The Social Responsibility, Environment and Ethics Committee includes a sub-commission of Ethics.

2.14.1. Board Audit and Finance Committee (“BAFC”)

The BAFC is composed of the following Non-Executive Directors:

- Álvaro Cuervo (Chairman; Independent)
- Paulo Azevedo
- Albrecht Ehlers (Independent)

The BAFC normally meets at least 5 times yearly and is responsible for:

- reviewing the financial statements and earnings announcements to be disclosed to the market and to report its findings to the Board;
- analysing risk management, internally control, businesses and processes;
- reviewing the results of internal and external audits;
- following the trends in the main financial ratios and changes in formal and informal ratings of the Company, including reports from rating agencies;
- analysing and advising on any changes in accounting policies and practices;
- reviewing compliance with accounting standards;
- verifying compliance with legal and statutory obligations, in particular within the financial domain.

Over the course of 2011, the BAFC held 5 meetings with the respective minutes having been drafted.

Responsibilities attributed to BAFC as a specialised committee of the Board of Directors, are developed in terms of company management and do not override the functions of the Statutory Audit Board, as a supervisory Board. The BAFC is a Committee within the Board of Directors and according to its empowerment is responsible for an in-depth analysis of the financial statements, risk management processes and the performance of the key financial ratios. Among other areas, it issues recommendations for final deliberation at the Board of Directors, thereby improving its operational functioning.

2.14.2. Social Responsibility, Environment and Ethics Committee (“SREEC”)

The SREEC is composed of the following Non-executive Members:

- Belmiro de Azevedo (Chairman)
- Albrecht Ehlers (Independent)

This Committee is responsible for:

- review and advise the Board of Directors on information and reports to be included in the half-year and annual reports of the company
- monitorir the conduct of business in society, the impacts in terms of sustainability in its economic, environmental and social as well as corporate governance and ethical standards. It shall safeguard and monitor the implementation of the Code of Conduct, and proceed on its update whenever necessary

This Committee has an Ethics sub-committee composed by an independent non-executive member of the Board of Directors, by the Corporate Governance Officer and by the Internal Auditor, which have the function to advise the SREEC. The Ethics sub-committee prepares at least one annual report to the Board of Directors, and when appropriate also the auditing bodies of the related country, issues related with the corporate governance or business ethics.

The current members of the Ethics sub-committee are:
Albrecht Ehlers (Chairman)
David Bain (Corporate Governance Officer)
Rogério Ribeiro (Internal Auditor)

SREEC met twice during 2011 and recorder in the minutes their deliberations. The Ethics Committee met once.

2.14.3. Board Nomination and Remuneration Committee (“BNRC”)

The BNRC is composed of the following Non-Executive Members:

- Belmiro de Azevedo (Chairman)
- Álvaro Cuervo (Independent)
- Paulo Azevedo
- Albrecht Ehlers (Independent)

Committee meetings are normally held at least twice a year. The BNRC’s main functions are to review and submit proposals and recommendations on behalf of the Board of Directors to the Shareholders’ Remuneration Committee in relation to the remuneration and other compensations of Board members. Additionally, it analyses and approves proposals and recommendations on behalf of the Board of Directors in relation to the remuneration and other compensations for other senior executives of the Sonae Indústria Group, depending on the activity performed by them. BNRC is also responsible for finding potential candidates with a profile to be a Board Member both for the company itself and for its affiliated companies.

The BNRC liaises with the Sonae Indústria Shareholders’ Remuneration Committee since this is the only means through which to guarantee that the Shareholders’ Remuneration Committee has the necessary knowledge on the performance of every director throughout the year. This is particularly important in the case of the Executive Directors, given that the Shareholders’ Remuneration Committee does not closely shadow the performance of every Director and therefore does not have the necessary knowledge that enables them to perform their functions in the best way. The BNRC may also be assisted by external entities provided absolute confidentiality is ensured in relation to the information obtained arising from that cooperation.

Over the course of 2011, the BNRC met on four occasions with the respective minutes having been drafted.

2.14.4. Corporate Governance Officer

The Corporate Governance Officer (“BCGO”) is David Graham Shenton Bain, who reports to the Board of Directors of Sonae Indústria as a whole, through the Chairman.

Principal duties of the BCGO encompass:

- supporting the Board of Directors in defining its role, objectives and operating procedures in order to optimise Board of Directors performance;
- taking a leading role in organising Board of Directors evaluations and assessments;
- maintaining under close review all legislative, regulatory and corporate governance developments;
- supporting and challenging the Board of Directors to achieve the highest standards in corporate governance;

- supporting the Board of Directors in ensuring that the concept of stakeholders and the need to protect minority interests are in the Board of Director's mind when important business decisions are being taken
- Review annually the advantages and possible disadvantages of adopting the governance model adopted by the company.

The BCGO also acts as the secretary of the BAFC and BNRC and member of the Ethics Sub-committee.

Control mechanisms for a possible employee-shareholder system, in as much as the voting rights are not directly exercised by them, are not planned.

3.8. Share Price performance in 2011

The share price performance of Sonae Indústria is particularly affected by crises and the recovery in economic activity, as the company operates in a highly cyclical sector, dependent on the construction and furniture industries. Additionally, the company share price was also affected by the crisis of the sovereign debt, which resulted in a higher risk aversion to invest in Portugal, and the consequent escape of investors, particularly foreign investors went away from the Portuguese capital market which resulted in a lower liquidity.

2008 was marked by a global drop in equity markets resulting from the deepening crisis of confidence prevailing within capital markets due to problems related to subprime mortgages. During that year Sonae Indústria's share price declined from 6.65€ at the end of 2007 to 1.53€ at the end of 2008. In 2009, there was a slight recovery in stock markets, including the Sonae Indústria shares which recovered 69% from 1.53€ to 2.58€. During 2010, Sonae Indústria shares devalued 26%, from 2.58€ at the end of 2009 to 1.91€ in the end of 2010.

During 2011, share price declined 67%, from 1.91€ at the end of 2010 to 0.635€ at the end of 2011. The maximum of the year was reached on 21 January 2011 (1.927€) and the minimum on December 15, 2011 (0.5€).

3.9. Dividend policy

The Board set the goal to distribute 50% of the company's profits. Each year, the ratio of actual payment to be proposed by the Board of Directors will take into account the degree of soundness of capital structure of society, as well as the existing investment plan.

3.10. Transactions with Related Parties

Sonae Indústria did not carry out any transactions with members of the Board of Directors nor with the Statutory Audit Board members.

All transactions with holding or other related companies represent normal operational activity and were made under “open market” conditions and at prices that comply with transfer pricing regulations.

Any transaction with shareholders or entities with whom they are in any relationship, under Article 20 of the Securities Code (reference shareholders), greater than 10 million Euros, should be subject to prior opinion of the Statutory Audit Board. The request for an opinion must be accompanied by all the elements required to allow a comparative analysis with the market and how potential conflicts of interest will be managed.

Transactions that have been contracted with reference shareholders shall be a result of a competitive process and when lower than 10 million Euros will be exempt from the prior opinion of the Statutory Audit Board but will need to be reported to the Statutory Audit Board under the procedures mentioned below.

The Sonae Indústria CFO is responsible for reporting to the Statutory Audit Board:

- 1) on a quarterly basis, all transactions with reference shareholders that exceed Euro 1 million and any other transactions that are deemed to be particularly “sensitive” by management
- 2) on a yearly basis transactions with reference shareholders with accumulated annual values that exceed 5 million Euros.

3.11. Investor Relations

Sonae Indústria has its own Investor Relations’ Department, responsible for managing the relationship between the Company and shareholders, investors, analysts and market authorities including the CMVM (the Portuguese Securities Exchange Regulator).

Each quarter, the Investor Relations’ Department is responsible for coordinating the preparation of an earnings announcement to be issued to the market and provides statements whenever necessary to disclose or clarify any relevant fact or event that could affect the share price. The Investor Relations’ Department is available at all times to respond to any general questions posed by the market. The Company is available to meet with investors, either in roadshows or in one-to-one meetings upon request, or by participating at conferences.

Sonae Indústria’s Investor Relations Department may be contacted by email at investor.relations@sonaeindustria.com or by telephone: + 351 22 010 0638. The Investor Relations manager is Patrícia Vieira Pinto.

In addition, Sonae Indústria has an institutional website (www.sonaeindustria.com) that posts all earnings announcements, statements, reports and accounts together with any other public documents, press releases or general news items on a wide range of themes relating to the Company and Group.

Sonae Indústria’s legal representative relations with equity market (“Representante para as Relações com o Mercado de capitais”) is Rui Correia, who can be contacted via the Investor Relations Department or alternatively, directly by email: rmcorreia@sonaeindustria.com.

The Company's website contains wide-ranging information in English, including the company's name, the quality of publicly traded company, headquarters and other elements mentioned in Article 171 of the Companies Code. Further information relates to the Articles of Association, the identity of the governing bodies and representative relations with the equity market, Investor Relations Department, their duties and ways of access as well as documents of accountability. A corporate events calendar is also provided together with proposals for discussion and vote at the Shareholders' General Meeting and notice to convene the same meeting.

3.12. Remuneration of the Statutory External Auditors

In 2011, the statutory external auditor PriceWaterhouseCoopers invoiced Sonae Indústria and its affiliated companies a total amount of 443 807 Euros, being 93.64% related to the legal certification of the accounts, 6.05% related to other reliability services and 0.31% related to tax advisory services.

The tax advisory services referred to above, in the amount of 1 361 Euros, were requested by Tafibra Suisse and respect to checking of tax returns and consulting on a capital reduction process. Besides its diminished value, the Statutory Audit Board approved these services.

PriceWaterhouseCoopers is the Statutory External Auditor of the company since the Shareholders' Annual General Meeting of 2006 and is in its second three year term. As such, Sonae Indústria has not taken any decision as yet regarding its rotation.
